

CANYONING IN MADEIRA

1 day

DAY 1

MADEIRA ISLAND (RIBEIRA DAS CALES)

Half Day Tour

Canyoning is a mountain activity that takes place on the river's riverbed. With the help of our experienced guides, enjoy going down on the river tributaries using various mountain sports techniques, which require some physical effort, such as climbing, rappel, hiking, and even swimming! For the enthusiast, the geological composition and landscape of Madeira, characterized by large irregularities of the terrain, provide an incredible adrenaline rush. Several waterfalls flow into small streams and lakes, with clear and deep waters. Along the way, along with all the natural obstacles, we will find several snuffs, alternating with jumps to small natural lagoons, as well as toboggans. Come and have fun and enjoy the fantastic views and secrets hidden in the deep valleys of Madeira.

Location might change due to weather reasons.
